Was the Open Morning time convenient?

2 responses

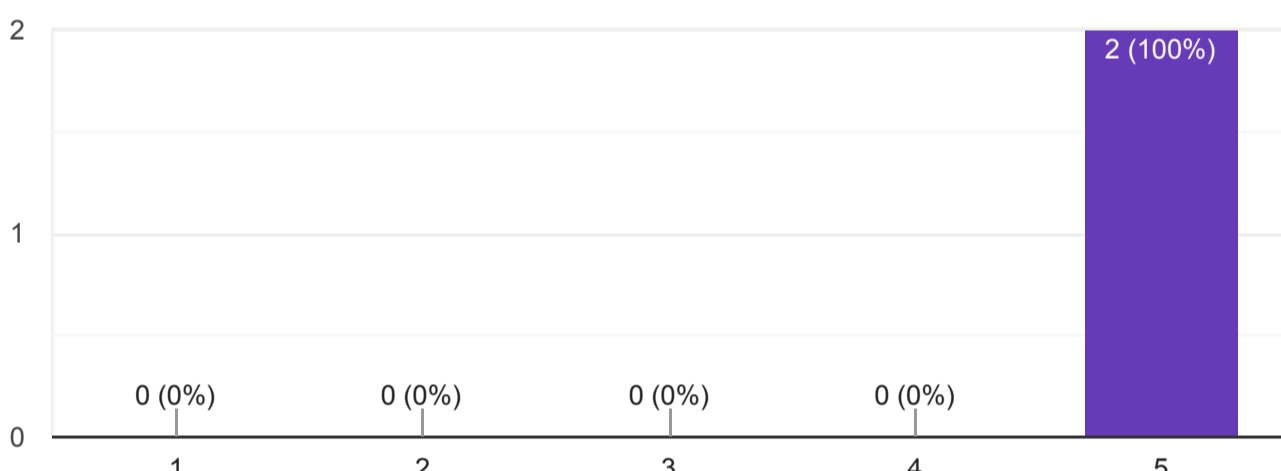

How did you find the welcome and registration process?

2 responses

How would you rate the tour?

2 responses

Which aspects did you find most valuable?

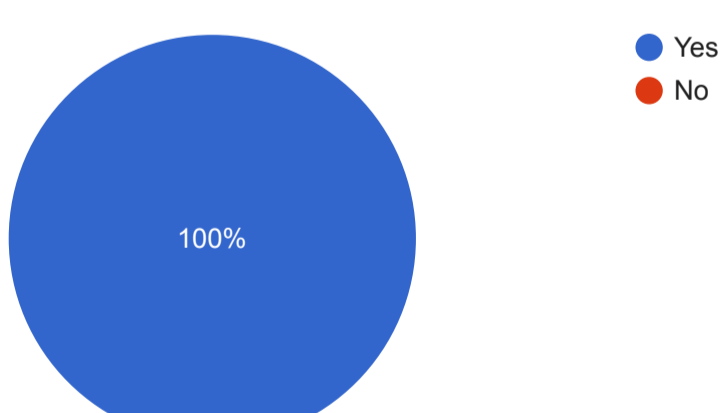

2 responses

Visiting the classrooms, interacting with the teachers and boys and having the opportunity to ask questions throughout the tour

I loved seeing the children interact within the classes to give you a sense of what the boys get to experience at school everyday. it was great to learn about the history of the school and to see the tradition and values to which they teach the young boys

Was the duration of the Open Morning the right length?

Do you have any further suggestions or comments?

2 responses

I thoroughly enjoyed the tour and loved the school

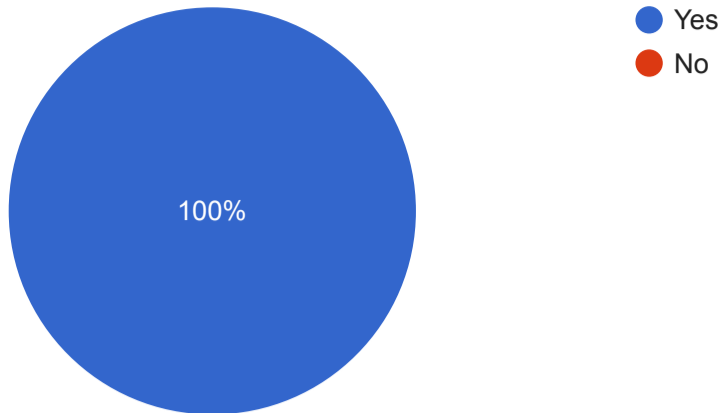

No- I think the tour was highly beneficial as well as informative for us.

I enjoyed the Q&A with the parents and meeting the boys who were all polite and confident

Meeting the teacher as well as walking the grounds and interacting with the school children.

Seeing the classrooms and what the boys are currently learning, seeing the facilities, general information (sport, extra murals, activities, times, etc), hearing specific information from the head of pre-prep.

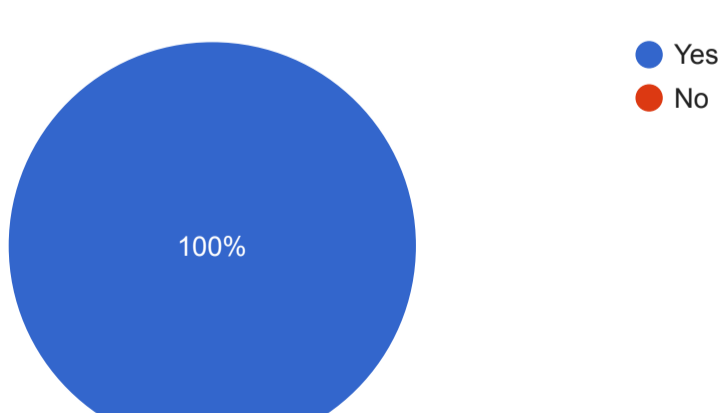

The discussion with the teachers and boys was a highlight. Caron was knowledgeable and answered all questions enthusiastically!

The Q&A, getting a feel for the school

Opportunity to talk to students and teachers

Not at this time.

Lovely morning and glad we attended the school tour! WPPS is a beautiful school and I could sense the family atmosphere this morning amongst teachers and children.

We enjoyed the tour, Caron was very informative thank you. We hope a space becomes available for Jasper, he will love Wetpups!

Unfortunately we didn't get to speak much with Nadine more about the admissions process as there were a number of parents with questions, but I'm sure we'll get the opportunity.

Started very early so logistics getting little children to school tricky

No thank you
